

If I did this right this should be about
Airl, The Positive Alternative. Changing what every you guys want to change is a
"Bad" idea. "Reason" Personal Airl lives up to its name "The Positive
Alternative" for listners such as me who are not interested in other Radio
Stations that are on the Air Wave's. Airl has touched so many Heart's and there
are so many people that wish/prayer that they had Airl In there own communitie.
There are so many people that have been effected by Airl in a "Awesome Way".
IE: People Serch the Air Waves, There have been people who were going to kill
themselves "And they Hear Songs" Such as "SDS 'I Know'" And they get touched and
who know's what happens after that. By changing Airl Service will greatly effect
"Large" Numbers of people around the Nation. Just Listen.
